Hi Ana,

This is similar to the previous FOIA request. Around the same time as the original FOIA request, a number of people in EFED began receiving emails from Ms. Haider. On Monday, March 2, 2015, Anita responded to Ms. Haider via email (see below):

Subject: RE: Endangered Species Protection Program Database (ESPPD)

Shermin,

Thanks for your interest in the ESPP program; however, we are no longer able to distribute the file. As I mentioned in my VM, the data (gathered in 1999) is extremely outdated and has been removed from our website. I would recommend that you consult the following websites for the most recent information on species range data:

<http://ecos.fws.gov/crithab/> - FWS critical habitat data
<http://www.fws.gov/endangered/> - FWS endangered species database
<http://www.nmfs.noaa.gov/pr/species/index.htm> - NOAA/NMFS listed species data

Best regards,
Anita

Subject: Endangered Species Protection Program Database (ESPPD)

Good morning Anita,

I hope this message finds you well.

Sorry I missed your call.

I understand the ESPPD is super old, however I would still like to acquire the file(s). Please note, I am willing to pay any fees necessary to obtain the database. From the attached document, it looks like the database came in shapefiles. I'd love to acquire the data in this format please.

Also, you mentioned that in place of the ESPPD, there is now data available on the US Fish & Wildlife website.

Can you please send me the link that you're specifically referring to?

Thank you for your time and I look forward to hearing from you.

Best,
SH

Ms. Shermin Haider

We thought that this request was closed out as we have explained to Ms. Haider that the information is outdated and has been removed our website.

Thanks,
Melissa

Subject: FOIA Request

Good morning Melissa,

We have received another FOIA request into our OPP office regarding the Endangered Species Protection Program Database. I know you've helped us before with the Endangered Species database. I've attached the FOIA request and the description of their request.

Please let us know if you can guide us towards finding some responsive records.

Thank you for your time,
Ana
